The timeless **Rotary Display** is our tried and proven Window System. Sturdy & adjustable, this component display has countless variations, and can easily be self installed - even by the novice. Aluminium columns can be hand rotated to access the window facing properties. Options include: Top, Mid or Bottom internally illuminated signage panels ("diffusers"); Folded Acrylic Cardholders or Aluminium or Timber Picture Frames; Single or double sided; Low Volt Downlights; Split systems.

As with all our Displays, each system is custom built to your needs & specifications.
